

TEENAGE MUTANT NINJA TURTLES

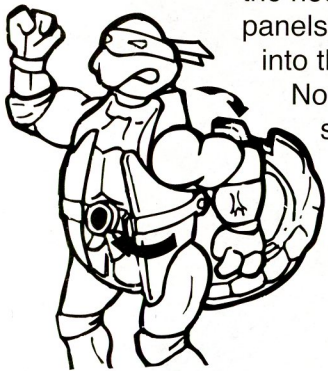

HOW TO MUTATE TURTLES:

1. Help the mutant Turtle become the original Turtle pet.

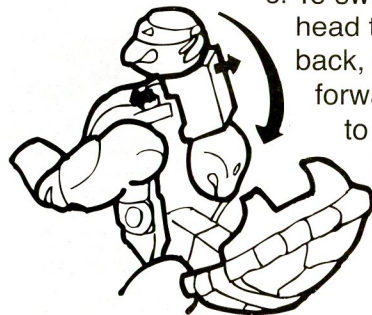

2. Crack the shell open at the neck. Rotate the side panels around and snap into the belt buckle.

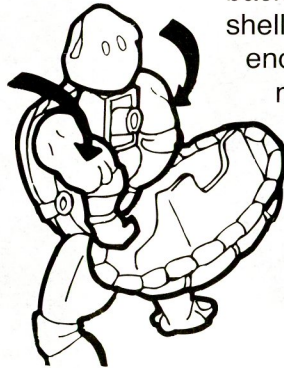

Note: To open the shell easily, gently squeeze the back sides of shell.

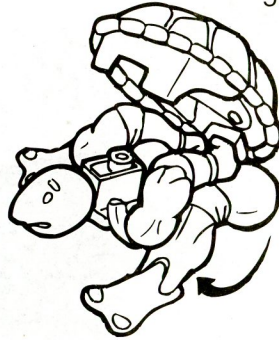

3. To switch from mutant head to pet head, pull back, rotate, and push forward the ninja neck to lock head into position.

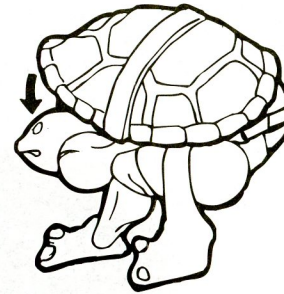

4. Rotate the mutant arms back and inward into shell. (Note: Mutant arms end up positioned in middle of interior body as shown.)

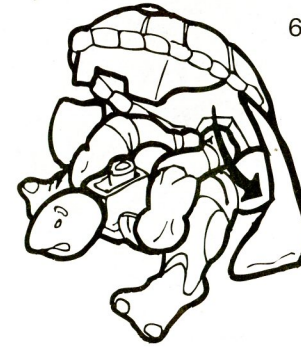

5. Swing the mutant legs forward to become the front pet legs. (Note: Keep legs positioned close to sides of body.) Hinge feet down flat on ground.

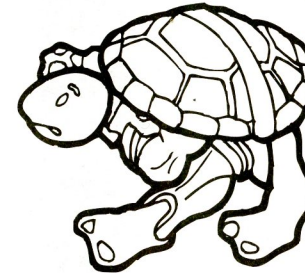

7. Close shell.

6. Swing out the hind pet Turtle legs from inside the back shell. (Note: Hind legs should be positioned behind front pet legs as shown.)

8. Now the mutant Turtle is the original Turtle Pet. To help him become a mutant just reverse the above steps.

Please Note:

- Never force limbs into position. If parts don't fit comfortably or the shell does not close easily, you may have missed a step. Always keep the limbs tucked in, positioned close to body.
- If Turtle shell pops off, simply snap it back on.
- Don't forget being a mutant master takes practice. The more you mutate, the better you become.

Ages 4 and up
